Ever been to a hanging...

I was at one last week! The show is now hung!

Curator, Mary Williams and Brad at Castle Rock Hospital measured and hung and labeled and the show looks great!

I'm excited to finally unveil these pieces that I've been working on since January and thinking about a lot longer! They are hanging in September/October at the Castle Rock (CO) Adventist Hospital and are scheduled to move to the Littleton (CO) Hospital in November/December. Very fitting as I was an ICU/Home Care nurse in another life! I believe in the "Healing Powers of Art", not only for the sick but those who care for them as well. These paintings may also be viewed on my website: www.allenfineart.com
